

Build your future with us:

# Business Development Referent (m/w)

**Unlimited Contract**, for the Fermacell GmbH, official residence in Düsseldorf, at earliest possible date.

## Responsibilities

- Our team deals with a wide range of different projects from Strategy, Business Development and Operational Excellence to Business Integration and M&A.
- You are responsible for managing and steering projects in an international context both on corporate and local business unit level.
- You directly contribute to the development and execution of James Hardie Europe's strategy and growth plans.
- You are part of a dynamic, engaged and dedicated team. We strongly support your personal development with regular feedback and immediate links to top management.

## Profile

- A good Master / Bachelor degree, preferably in the field of economics / business administration or engineering
- Several years of professional experience in management consulting, equivalent industry roles or corporate finance
- First project experience (PMO), consulting skills and methodological expertise
- Very good analytical thinking and a structured approach
- A convincing personality with a hands-on mentality and strong communication skills
- High dedication and personal drive
- A very good knowledge of the German and the English language
